

IN THE CLAIMS:

Please cancel claims 2 and 8 without prejudice to or disclaimer of the subject matter recited therein.

Please amend claims 1, 3, 7, 9, and 12 as follows:

LISTING OF CURRENT CLAIMS

Claim 1. (Currently Amended) A display panel structure, comprising:
a plasma display panel, further comprising:

a front glass, through which the plasma display panel display images
to the ~~outside;~~ outside, and

a rear glass, which is corresponding to the front glass, and there is a
plasma ~~spaced~~ enclosed between the rear glass and front glass; and

a filter, which is directly formed upon the front ~~glass;~~ glass and does not
include a glass layer.

Claim 2. (Canceled)

Claim 3. (Currently Amended) The display panel structure according to claim
~~2;~~ 1, wherein the filter includes an electromagnetic wave shielding layer, a color
compensating layer, and an anti-reflecting layer.

Claim 4. (Original) The display panel structure according to claim 3, wherein
the filter further includes a hardening arrangement layer.

Claim 5. (Original) The display panel structure according to claim 4, wherein
the hardening arrangement layer is arranged at pasting place of two layers of filter.

Claim 6. (Original) The display panel structure according to claim 5, wherein
the filter, facing the front glass, sequentially has electromagnetic wave shielding
layer, color compensating layer, hardening arrangement layer, and anti-reflecting
layer.

Claim 7. (Currently Amended) A plasma TV, which has a display panel structure, comprising:

a plasma display ~~panel~~; panel further comprising:

a front glass, through which the plasma panel display images to the ~~outside~~; outside, and

a rear glass, which is corresponding to the front glass, and there is a plasma spaced located between the rear glass and front glass; and

a filter, which is directly formed upon the front ~~glass~~. glass and does not include a glass layer.

Claim 8. (Canceled)

Claim 9. (Currently Amended) The plasma TV according to claim 8; 7, wherein the filter includes an electromagnetic wave shielding layer, a color compensating layer, and an anti-reflecting layer.

Claim 10. (Original) The plasma TV according to claim 9, wherein the filter further includes a hardening arrangement layer.

Claim 11. (Original) The plasma TV according to claim 10, wherein the hardening arrangement layer is arranged at pasting place of two layers of filter.

Claim 12. (Currently Amended) The plasma TV according to claim 11, wherein the filter, facing the front glass, sequentially has electromagnetic wave shielding layer, color compensating layer, hardening arrangement layer, and anti-reflecting layer.
